

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Evangelos Kapsalis
DOCKET NO.: 03-22102.001-R-1
PARCEL NO.: 10-27-417-005-0000

The parties of record before the Property Tax Appeal Board are Evangelos Kapsalis, the appellant, by attorney Rusty A. Payton of the Law Offices of Rusty A. Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

The subject property consists of a 43-year old, multi-level masonry dwelling containing 1,403 square feet of living area with a partial, finished basement.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellant submitted a grid analysis detailing four suggested comparable properties. On the appellant's map, one of the comparables is located approximately 0.3 mile from the subject; two are located approximately 0.6 mile from the subject; and one is located approximately 0.8 mile from the subject in a different municipality. The comparables are one-story or multi-level masonry dwellings that are 36 to 50 years old. Each of the comparables has a partial basement. One of the comparables has a fireplace, and two have central air conditioning. Information on garages was not disclosed, although photographs supplied by the appellant indicate that at least two comparables have a garage, either one-car or two-car. The comparables contain 1,166 to 1,719 square feet of living area and have improvement assessments ranging from \$11.63 or \$11.64 per square foot. The subject property has an improvement assessment of \$13.61 per square foot. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's assessment was disclosed. In

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	5,744
IMPR.:	\$	19,096
TOTAL:	\$	24,080

support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet detailing three suggested comparable properties that are located in close proximity of the subject. The comparable properties consist of multi-level masonry dwellings that are 38 to 48 years old. Each of the comparables has a partial, finished basement and central air conditioning. Two of the comparables have two-car garages, and two have fireplaces. The dwellings contain 1,435 to 1,485 square feet of living area and have improvement assessments of \$13.91 to \$14.95 per square foot. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds that a reduction in the subject's assessment is not warranted. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties presented assessment data on a total of seven equity comparables. The appellant's comparable two differed substantially in location from the subject and also differed in design. As a result, this comparable received reduced weight in the Board's analysis. The appellant's comparables one and four differed in location and also received reduced weight. The appellant's comparable three and the board of review's comparables were the most similar to the subject property in age, location, and physical characteristics. These comparables had improvement assessments of \$11.64 to \$14.95 per square foot and support the subject's improvement assessment of \$13.61 per square foot. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject properties, the Board finds the subject's per square foot improvement assessment is supported by the most comparable property contained in the record and a reduction in the subject's assessment is not warranted.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has not adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board are subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
